

Dr. Amit Gangoli is a Board Certified Infectious Disease Specialist and founder of Eastern Pennsylvania Infectious Diseases Associates, LLC. He has been in private practice in Chester and Lehigh Counties since 2006. Dr. Gangoli did his fellowship training at the University of Pittsburgh Medical Center and has extensive experience in complex infectious disease problems including HIV, transplant infections, and emerging pathogens.

Infectious Disease Specialists diagnose and treat infections caused by bacteria, viruses, parasites, and fungi. They treat a wide range of conditions such as the flu, and Lyme Disease to more serious infections such as Hepatitis, HIV, AIDS, MRSA, tuberculosis, and meningitis. Dr. Gangoli has a special interest in Lyme Disease, especially the challenges associated with Post Lyme Disease Syndrome. He has also worked on hospital infection control committees and helped plan emergency preparedness for emerging infections like swine flu and bird flu as well as potential bio-terrorism threats. In addition, Dr. Gangoli continues to give talks in the community to other health care providers to raise awareness of current issues such as MRSA, Lyme Disease, and infection control and regularly teaches medical residents while rounding during the week.

Dr. Amit Gangoli is glad to be of service in the community and looks forward to many more fruitful years ahead.
